

Highland Fold																	
<b>Body</b>	<p>The medium to large sized cat is muscular and stocky. Chest, shoulders and back are broad and massive.</p> <p>The legs are short and muscular, the paws are thick and round.</p> <p>The tail is of medium length, reaching at least to the shoulders. It ends in a rounded tip. It should not have thickened areas or stiffness and should be fully flexible up to the tip.</p> <p>The neck is short and solid.</p>																
<b>Head</b>	<p>The head is rounded, massive, broad with a firm chin. The nose is short, broad and straight. The profile is curved (without a stop). The cheeks are full and round.</p> <p>The large, round whisker pads give <b>definition</b> to the short, <b>pronounced</b> muzzle.</p>																
<b>Ears</b>	<p>The ears are small and forward folded, with slightly rounded tips, which point towards the centre of the head. They are set wide apart and lie flat to the skull.</p>																
<b>Eyes</b>	<p>The eyes are large and round. They are wide set.</p> <p>Eye colour corresponds with the coat colour.</p>																
<b>Coat</b>	<p>The coat is of medium length and very dense, with substantial undercoat. It is crisp and does not lie flat.</p>																
<b>Colour varieties</b>	<p>All colours, patterns with any amount of white and pointed colours with Siamese points without white are recognized. The description of colours is listed in the general list of colours.</p>																
<b>Faults</b>	<ul style="list-style-type: none"> <li>• Inflexibility of any part of the tail is a severe fault.</li> <li>• Ears not lying flat to the skull</li> <li>• Profile with a stop</li> </ul>
